Thinking beyond the can

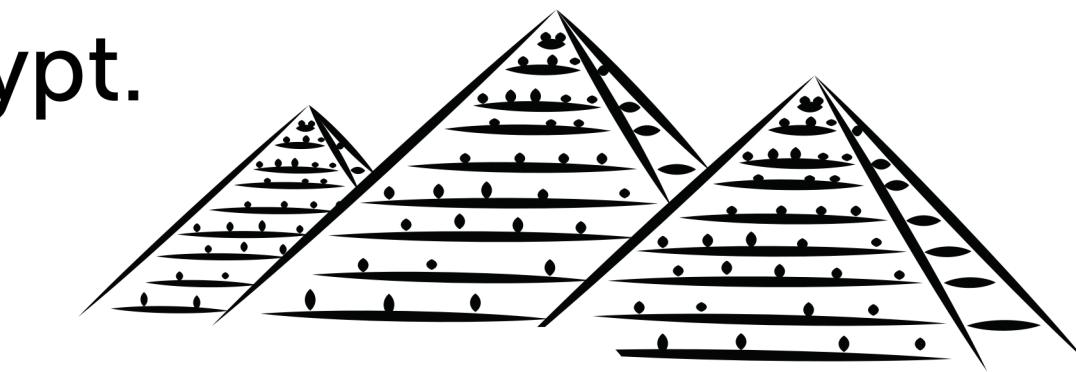

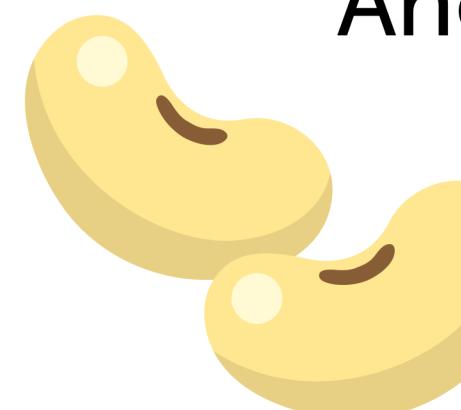

Beans and the 5 senses

History of beans

- People have been eating beans for the last 10,000 years.
- They are the longest cultivated plants in history.
- Broad beans were first grown in Afghanistan and near the Himalayas.
- Beans were buried with the dead in Ancient Egypt.

History of beans

- The beans in our tins of beans were grown in Central and South America.
- Christopher Columbus (1490's) first saw them growing in the Bahamas.
- People from all over the world have beans as part of their diets.

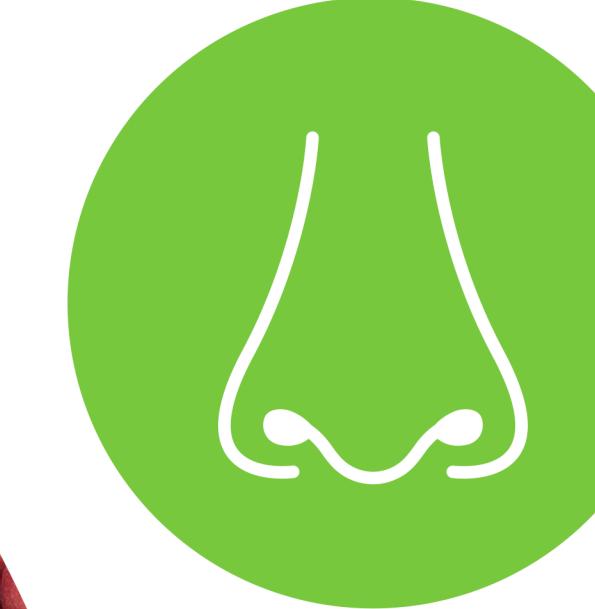

**What are
the 5 senses?**

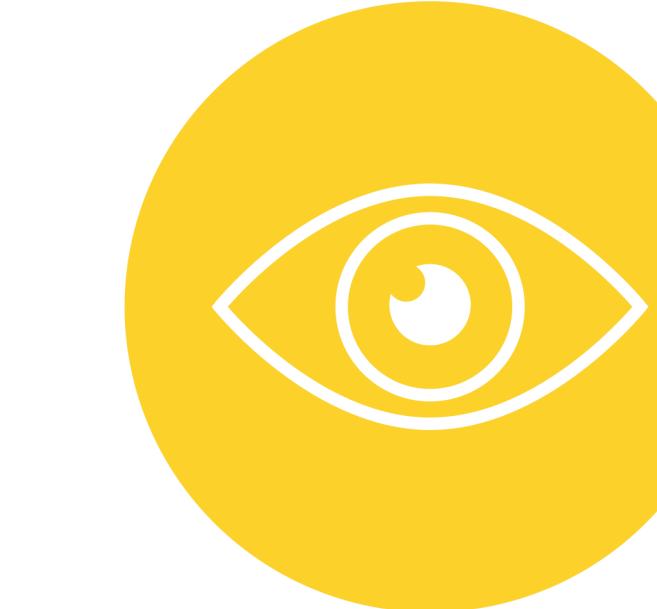

taste

smell

touch

sight

hearing
